Flow Cytometry Training Courses

Babraham Institute, Cambridge

These training courses are written by expert flow cytometrists and delivered by experienced trainers. These interactive courses are modular, have been designed to build on knowledge from one module to another and are presented as two linked modules.

Module 1: Fundamentals of Flow Cytometry

7th February 2017
7th April 2017
2nd November 2017
7th December 2017

Module 2: Advanced Flow Cytometry

8th & 9th March 2017
7th & 8th November 2017
5th & 6th December 2017

A tour of BI Flow Core is included in Module 2 of these interactive courses.

“This course was recommended to me by a lot of people and I will join the chorus to recommend this course to anyone who needs help with flow cytometry.”
